FINE ART PORTRAITS

PRICE LIST

PRICING INFO:

The Price List shows prices for the five portrait types, in a few standard sizes.

Other sizes are available. A portrait can be any size, or any shape (tall and thin for example). It doesn't have to be a standard size.

For some portrait types, Pet portraits are priced less than Human portraits. For additional individuals in the same portrait (human or animal), add 50% per individual. For an additional human, add 50% of the Human portrait price, for a pet add 50% of the Pet price.

Your portrait is unique, unlike any other. Together we will decide on the best way to portray the special beauty of your loved one. The price may be higher or lower than shown on the Price List, depending on what we decide.

Prices do not include framing or shipping.
