About the Art

"In my mid-20's I moved to an area far from where I grew up. I began writing letters to my parents, and we continued that for the next 15 years. Many of my letters were decorated with my own artwork. After my dad passed away two years ago, my mom found a box of my old letters that Dad had saved. This was one of them, written in the Fall of 1987. It was hand-painted with watercolors, with metallic gold ink on the lettering.

Seeing that hand-painted letter from so long ago inspired me to share this Coloring Page stationery with you. I hope this will inspire you to write a letter to someone who will treasure your letter as much as my dad treasured mine."

*I created a lot of stationery art during those years.
I would love to share more of it with you.*
